THE BASICS OF PHOTO EDITING

ADOBE LIGHTROOM WORKSHOP

Lr

Have you ever wondered how those pictures you saw on Pinterest looked so polished? Or maybe you've always wanted to get into photography, but felt intimidated by the seemingly complex programs? Perhaps you simply want to up your Instagram game? If the answer to any of these questions is "yes", then this workshop is for you!

Lightroom is a **user friendly photo editing app** that allows you much **more control than a regular filter app**. Together, we'll learn how to master the basics of that program in order for you to **express your own style through your pictures**.

TUESDAY 20TH APRIL
FROM 1PM TO 2PM
on Teams

YOU'LL NEED...

1. to register: adrien.pham@uclouvain.be
2. the free Lightroom mobile app on your smartphone
3. the pictures I'll send you in a WeTransfer link the week before the workshop
4. your curiosity and creativity :)

ABOUT THE PRESENTER

Tatiana is a sociology and anthropology student who's always been interested in various art forms. After picking up a camera to take some souvenir photos with her friends during her "rhéto" trip, she decided it was time for her to learn how to edit her pictures in a more personalized way.
